

WEBINARS

We offer turn-key solutions from inviting travel agents to your webinar by database of 45 agents, till sending them video-recording of your webinar. We use independent webinar platform, which allows till 4 simultaneous speakers and video streams, PPT presentations, YouTube video etc. You can conduct your webinar from anywhere on the world, we will connect you by Internet.

Great organization of a webinar! We got everything on time, and the price was more than affordable... Marina always creates something interesting, like a quiz, or a survey at the beginning (which allows us to understand the audience better and to adjust information according to what agents already know). Baginet also provides the most detailed statistics in comparison to any others, we got reports for 70-90 pages with graphics and e-mails
